How do you design consistent brand activations at Solana's biggest conference as a headline sponsor with limited time and resources?

CLIENT:
SYNDICA

PROJECT:
WEB3 INFRASTRUCTURE - BREAKPOINT 2025

ROLE:
SENIOR DESIGNER

Digital interactive ASCII art with live data. ASCII facial capture, storage, and share. Supporting micro-site. Hero video position. Logo animation on entry. Booth Graphics with dual screens. Standee banners. Branded merch.

- Visitors approach the screen
- They are detected by motion cameras
- Their image is shaded on screen in ASCII
- Face detection triggers a capture window
- Capture countdown & ASCII image save
- Stored on blockchain & hosted on micro-site
- Downloadable via QR Code or micro-site
- Optional printed card

2 Layers. Background. Interactive.

Background layer:

- 1 SYNDICA in ASCII
- 2 Loading live transaction data
- 3 Raw live transaction data
- 4 Plexus visualisation of live transaction data

Interactive layer
(when not in use):

- A Rotating ASCII brand logo
- B 4 rotating brand action words
- C ASCII capture simulation

How do you give a brand a glow-up without losing what it means to celebrate youthful self-expression?

Bring the sunshine

Connect to Sydney
Create a sense of wonder
Play with light & shadow

Keep it moving

Provide energy
Encourage movement
through the space

Play, explore, discover

Fun & Shared
Create Curiosity
Uncover new perspectives

Make it flexible

A well built framework
Easy to update & feel new
A canvas to experiment

How we're going to do it...

Ambient Animation

Shimmering Harbour

Content

Showcase Sydney

Interactivity

Play + Explore

Personalisation

Welcome + Inform

The particles gently bob up and down as harbour waves, showing more content as they become larger and clearer. The waves have a subtle motion from left to right, encouraging visitors to continue to the event space.

Particle engine drives ambient animation & interactivity

Hidden Rockpools

Once you begin interacting, hidden rockpools get created. As ambient waves and your ripples flow over the rockpools, particles get caught. From time to time a wave might come along and wash all the particles away, and create new rockpools in new locations.

Rare Easter Egg
Only get triggered 10% of the time.

Rare Easter Egg
Only get triggered 10% of the time.

TRIGGERED BY INTERACTION 2 conditions

- 1. User Interaction**
There is at least 1* person detected in front of each* third of the screen for 5* seconds, and
- 2. Time Elapsed**
It has been at least 5* minutes since the last Easter Egg was triggered

TRIGGERED MANUALLY

The Easter Eggs can be triggered manually by a corresponding keyboard. 4 keys will be allocated to each Easter Egg in both themes, i.e. key "1" = Easter Egg "1" etc

Attract Ripple
Visible feedback on the attract ripples when user enters the "Easter Egg" zone

Easter Eggs:
Surprise moments of delight.
User triggered animations.

» [watch the easter eggs \(design development\)](#)

How might a global community of practice feel like a shared learning space for consultants, educators, students and their parents?

CLIENT:
WELLBEING EDUCATION NETWORK

PROJECT:
EDUCATION DEVELOPMENT PLATFORM

ROLE:
LEAD EXPERIENCE DESIGNER

UX/UI design concepts:
Visualising key features
and journey moments.

Experience Framework:
How the platform should
feel and function.

Stakeholder Mapping:
Community roles and
interactions.

1. Access

EASY TO FIND, EASY TO USE

What this is:
Frictionless pathways to information, support and action are the foundations of Plaza's customer experience. Experiences are inclusive, empathetic and approachable for people of all abilities, backgrounds, levels of WE literacy and preferred methods of learning.

Relevant accessibility standards are followed to support this.

- How this is evaluated:**
- Are the latest accessibility standards* met?Is
 - information accessible in as few clicks as possible?
 - Do users have enough control to support and define their best experience?

4. Reward

CELEBRATING ACHIEVEMENTS, SHARED PURPOSE & COLLECTIVE IMPACT

What this is:
Members are rewarded for community participation, task completion, milestone achievements and expertise / participation in WE program - these rewards could take the form of profile status scores / updates and animations.

On a collective level, the impact of WE programs across the global school community is shared and celebrated.

- How this is evaluated:**
- Do I feel good using the platform?
 - Am I encouraged to keep using the platform?
 - Do I feel like I'm making progress?
 - Do I feel like I'm part of something bigger?

2. Knowledge

RICH INFORMATION, TAILORED TO NEEDS

What this is:
Expertise, research and tools are delivered through multiple channels and in multiple forms, giving members the ability to constantly improve their understanding, practice and implementation of wellbeing education.

WEN has a deep understanding of their members' preferences, considerations and program efficacy giving them personalised impact reporting and content.

- How this is evaluated:**
- Are the users behaviours and preferences known, and used to tailor information?
 - Is the latest, best, most up-to-date information available?
 - Are multiple methods of knowledge transfer supported where appropriate?

3. Action

COLLABORATIVE, EMPOWERING

What this is:
Experiences are engaging and encourage a state of flow through a bias towards 'doing'. There are always clear actions to take that support member needs, goals, and build advocacy and community.

Actions are practical (participate, create, complete, download) and emotional (share, reflect, react, comment).

- How this is evaluated:**
- Is the user being encouraged to 'do' - i.e. participate, collaborate, co-create, advocate?Are
 - there appropriate practical actions provided to improve understanding or implementation?Are
 - there appropriate emotional actions provided to create and strengthen relationships?

Community of practice

Members of WEN Plaza connect and share expertise with each other, lifting their collective knowledge of wellbeing education and their ability to deliver effective wellbeing interventions in schools.

Change influencers

A global community of wellbeing education practitioners use WEN Plaza to advocate for system-level change - encouraging and supporting school leaders to initiate wellbeing programs in their schools.

Beneficiaries

WEN Plaza will enable students to be heard through ethical and secure surveys administrated by the schools - encouraging a data and science driven approach to improve young people's wellbeing.
