How do you evolve a brand so it connects every node, from thought leadership to live product?

CLIENT:
SYNDICA

PROJECT:
WEB3 INFRASTRUCTURE - BRAND & PRODUCT

ROLE:
SENIOR DESIGNER

Archetype: Pagani High-Performance Sports Car
Performance Laid Bare = Fast + Reliable + Critical Functions Only

Custom-made chart builder using AI.
Made to the specifications of the
research charts and brand guidelines

Suports multiple users. Global save states.
12+ chart types, 100+ CSV & visual settings.
Chart production time 30min → 5min

Users view the various metrics that define validator performance on the Solana Blockchain - from clients and schedulers, to raw performance and fees & Revenue.

App Home redesign:
accessible critical
actions & data.
→

Sign-up redesign:
quicker, clearer.
↓

How do you design consistent brand activations
at Solana's biggest conference as a headline
sponsor with limited time and resources?

CLIENT:
SYNDICA

PROJECT:
WEB3 INFRASTRUCTURE - BREAKPOINT 2025

ROLE:
SENIOR DESIGNER

- Visitors approach the screen
- They are detected by motion cameras
- Their image is shaded on screen in ASCII
- Face detection triggers a capture window
- Capture countdown & ASCII image save
- Stored on blockchain & hosted on micro-site
- Downloadable via QR Code or micro-site
- Optional printed card

2 Layers.
Background.
Interactive.

Background layer:

- 1 SYNDICA in ASCII
- 2 Loading live transaction data
- 3 Raw live transaction data
- 4 Plexus visualisation of live transaction data

Interactive layer (when not in use):

- A Rotating ASCII brand logo
- B 3D rotating brand action words
- C ASCII capture simulation

How do you celebrate Australia's most successful sporting region without freezing it behind glass?

SPORTS QUIZ

How might a global community of practice feel like a shared learning space for consultants, educators, students and their parents?

CLIENT:
WELLBEING EDUCATION NETWORK

PROJECT:
EDUCATION DEVELOPMENT PLATFORM

ROLE:
LEAD EXPERIENCE DESIGNER

UX/UI design concepts:
Visualising key features
and journey moments.

Experience Framework:
How the platform should
feel and function.

Stakeholder Mapping:
Community roles and
interactions.

1. Access

EASY TO FIND, EASY TO USE

What this is:
Frictionless pathways to information, support and action are the foundations of Plaza's customer experience. Experiences are inclusive, empathetic and approachable for people of all abilities, backgrounds, levels of WE literacy and preferred methods of learning.

Relevant accessibility standards are followed to support this.

How this is evaluated:

- Are the latest accessibility standards* met?Is
- information accessible in as few clicks as possible?
- Do users have enough control to support and define their best experience?

2. Knowledge

RICH INFORMATION, TAILORED TO NEEDS

What this is:
Expertise, research and tools are delivered through multiple channels and in multiple forms, giving members the ability to constantly improve their understanding, practice and implementation of wellbeing education.

WEN has a deep understanding of their members' preferences, considerations and program efficacy giving them personalised impact reporting and content.

How this is evaluated:

- Are the users behaviours and preferences known, and used to tailor information?
- Is the latest, best, most up-to-date information available?
- Are multiple methods of knowledge transfer supported where appropriate?

3. Action

COLLABORATIVE, EMPOWERING

What this is:
Experiences are engaging and encourage a state of flow through a bias towards 'doing'. There are always clear actions to take that support member needs, goals, and build advocacy and community.

Actions are practical (participate, create, complete, download) and emotional (share, reflect, react, comment).

How this is evaluated:

- Is the user being encouraged to 'do' - i.e. participate, collaborate, co-create, advocate?Are
- there appropriate practical actions provided to improve understanding or implementation?Are
- there appropriate emotional actions provided to create and strengthen relationships?

4. Reward

CELEBRATING ACHIEVEMENTS, SHARED PURPOSE & COLLECTIVE IMPACT

What this is:
Members are rewarded for community participation, task completion, milestone achievements and expertise / participation in WE program - these rewards could take the form of profile status scores / updates and animations.

On a collective level, the impact of WE programs across the global school community is shared and celebrated.

How this is evaluated:

- Do I feel good using the platform?
- Am I encouraged to keep using the platform?
- Do I feel like I'm making progress?
- Do I feel like I'm part of something bigger?

Plaza

Fostering the Community of Practice

Detailed Customer Journey Mapping

Customer Journey Mapping:
Identifying flow and critical
features.

How do you turn a company's digital transformation into a client experience that visitors can touch, see, hear, collect and share?

[» watch the video](#)

CLIENT:
PWC AUSTRALIA & SINGAPORE

PROJECT:
DIGITAL CLIENT EXPERIENCE

ROLE:
UI & INTERACTION DESIGNER

Welcome Wall
Thought leadership, visitor check-in.

Media Fountain
Navigation, polls, event sign ups.

Waterfall
Cascading thought leadership. Save & share.

Innovation Pool
Immersive innovation gallery with flexible content.

Innovation Hub
Immersive 180° presentation experience.

Mobile App
Access all content & manage client experience.

Integrating the spatial, content, and interactive experiences.
